Update on GLaSS

This is what we are working on – our legacy data integration and conversion. Programming has been completed for addressing residency and professional judgement and we will be testing the data. The **grant** programs that have application forms the forms will be available within GLaSS, can be completed there and then HEAB staff will approve or request additional information; once completed the information is loaded into the system. AES and TES programming has started – high schools will enter the names of the students directly into GLaSS.
